

11 October 2023

Dear Parent/Carer,

Cleeve Park Careers

At Cleeve Park School we recognise that an effective careers programme can help prepare young people for the opportunities, responsibilities and experiences that lie ahead. The careers education is delivered within the school across all year groups, through PSHE, Tutor groups, subject lessons, and many other events. The programme is available to view on the Careers Microsite. (the QR code is at the bottom of this letter).

Cleeve Park School is also working toward the Quality in Careers Standard which is the national quality award for career education, information, advice and guidance. This award is fully compliant with the Department of Education's Statutory Guidance.

To enable our students to learn about which subject to study and what qualifications would benefit specific career choices, engage in the wider world and explore information about the labour market we have arranged for all teachers to connect their subjects with careers for a week from the 6th November. This could range from virtual speakers, workshops or/and homework.

As mentioned before we have also invested in the Unifrog Careers Platform (QR code found at the bottom of this letter) which helps students compare career pathways, universities and apprenticeships as well as further education courses. This platform is for students from year 7 to sixth form to manage the progression of their careers education journey. Your son/daughter can access this from home or school. If you require any further information on this, please do not hesitate to contact me.

Yours sincerely

Mrs A Unger
