

16th November 2023

Year 7 Maths teaching group changes

Dear Parent/Carer,

This letter is to notify you that as of Monday 20th November 2023, there will be changes to all year 7 Maths teaching groups. Following the outcome of the baseline assessments completed by all students before half term, we have reshuffled each Maths class. This means your child's Maths teacher and/or the students that are in their class will likely be different to what it was before half term. Students will be given new timetables so that they are clear where they need to go.

The purpose of these changes is to ensure that your child is now in an environment that best suits them. We have taken the information from the baseline assessments regarding their strengths and weaknesses and put them in a group where the pace of the lesson is beneficial to all. Regardless of the teaching group your child is in, they will still be taught the same content and still follow the same Maths curriculum outlined for all students.

Please note, no Maths class is ever permanent and we will continue to monitor the progress and outcomes of each child. We understand that students make progress at different rates so should further changes be needed at a later date based on new information we collect, we can and will make changes then.

We are committed to providing your child the necessary opportunities to achieve their best in Maths. If you have any questions regarding this teaching group change, please do not hesitate to get in contact

Yours faithfully

Mrs Awofeso
