Maths teaching group changes

Dear Parent/Guardian,

This letter is to notify you that as of Monday 27th February, there will be changes made to your child's Maths teaching group. Following the outcome of the assessments completed by all students before half term, we have decided to move them to what we believe is a more appropriate teaching group. Reasons for these changes include putting students in a class that either better enables them to be stretched and challenged or making sure they are in an environment where the pace is more beneficial. This will mean their teacher and the students that are in their class will be different. Students will be given new timetables so that they are clear where they need to go.

The purpose of these changes is to ensure that your child is now in an environment that best suits them. Regardless of the teaching group your child is in, the Maths curriculum they have access to does not change.

Please note, no Maths class is ever permanent and we will continue to monitor the progress and outcomes of each child. We understand that students make progress at different rates so should further changes be needed at a later date based on new information we collect, we can and will make changes then.

We are committed to providing your child the necessary opportunities to achieve their best in Maths. If you have any questions regarding this teaching group change, please do not hesitate to get in contact

Yours faithfully,

Mrs Awofeso
Head of Maths
